Church Has Supplied Inspiration for Movement Leading to Labor Reform, Declares Rev. A. Tuttle

Sunday, in many of the city churches, was observed as Labor Sunday. Special addresses were given on some phase of labor and economic conditions. Among the speakers in the various pulpits were: St. Andrew's, Strathcona, Westmount, St. Paul's, St. John's, Highlands, Dundonald and McDougall.

A large congregation later gathered at the First War or Peace Hall on 107th Street. It was War or Peace? by Rev. S. A. Tuttle, of the First Presbyterian Church. In introducing his subject, Mr. Tuttle stated that the question of the attitude toward the labor problem of today, and pointed out that the answer to it is to be found in the church. Mr. Tuttle said: "The church has not always been sympathetic in its efforts to secure justice for labor. Involuntarily and unconsciously, by accepting the inspiration and the moral dynamic which lay behind and was necessary for the solution of these

NEGLECTED TO FLAG CARS; DISMISSED

Complaint Against Employee Of The Street Railway Department

There has again been trouble in the street railway department over an employee neglecting to see the cars over taken in time. The action taken in the legislature made against the employee have resulted in his dismissal.

There have been many complaints that the men were not stopping the cars at crossings. It was this that was the cause of the trouble, and following the cautions issued by the city, the men have been more careful.

The city has already been involved in two service cases, and by the use of neglect of this rule, it is impossible to allow the employees to "take easy" at crossings.

The flagging at crossings is compulsory, and any neglect to do so, either by the streetcar men, or any other employee, and any neglect involves the city liable to heavy penalties.

POLICE AFTER GYPSY FORTUNE TELLERS

The city police have again started a campaign to rid the city of gypsies for some time. Friday night two women were arrested and charged with a breach of Section 412 of the Criminal Code. They were brought before Justice G. H. Dunn, the representative of the Canada Food Board for Alberta.

A charge of theft is also preferred against the two. The two women, it is alleged, took \$100 from one man, and the daughter to have attempted to extort \$100 from another. They were prosecuted in the city police court.

The two women, mother and daughter, were released on bail of \$500, and will stand trial on Sept. 15.

CLAIM FOR DAMAGES.

A claim for \$1,000 and \$1,000 of \$2,200 from A. Blaier has been filed in the court of Queen's Bench by Blaier's wife. It appears from the statement that the defendant agreed to deliver to the plaintiff a quantity of men's clothing at a specified price in December, 1917, and that he failed to deliver and refused to deliver the goods when called for. The plaintiff says the goods have now gone up in price at least 50 per cent, and that he has sustained a loss of nearly \$2,000.

Messrs. Freedman & Lieberman, lawyers are acting for the plaintiff.

Edmonton Male Chorus Resumes Practices

The Edmonton Male chorus, which will resume its practices on Sunday afternoon at 1 o'clock at the Y.M.C.A., has just been organized. The chorus under the leadership of Mr. Meissner.

It has been the aim of the chorus since its organization to bring a variety of male voices singing in the city, and to get the public to listen to a real male voice singing "the male choir."

With this end in view the chorus has appeared on the platform on no less than 15 occasions in the various points of the city as far apart as the East Side Park, Jasper Place and the East Side.

As the chorus was formed only in the last few weeks, it has not yet had its public debut, probably that at the Gravure song recital.

The chorus now possess a library of music which has been paid for by the members themselves.

HORACE DORER TELLS OF GREAT PROGRESS BY CITIES ON COAST

Horace Dorer, the conductor of the Edmonton Male chorus, arrived in the city yesterday from Vancouver and Seattle. He speaks especially about the progress made on the coast cities. The report of the coast cities, he said, shows a rapid increase in population by 25 per cent. The coast cities are estimated, being close on 450,000. Doron thinks the coast cities are the best. The spirit shown is marvelous. Some weeks ago the conductor could not be sure to keep the program set out for the city, and to get the public to listen to a real male voice singing "the male choir."

WILL SELL JEWELRY STOCK BY AUCTION

Mr. Horace Dorer, of Edmonton, has arranged in the city to sell the stock by auction of the jewelry stock and supplies of the firm of Johnson & Hulme, now Wedderburn, September 1 at 2:30 p.m. Messrs. Johnson & Hulme, the firm which has been in business for 25 years, may be considered.

EXCHANGE OF LAND

The city of Edmonton has arranged to make an exchange of land with the M. B. Co. in order that the entry of the Trans-Canada highway in 1919 on the S. E. 4 of 54-54-12 may be con-

PERMITS WILL BE ISSUED TO OBTAIN SUGAR

Temporary Provision for Users Who Have Not Received Certificates

A large number of public eating houses licensees, it has been learned, have applied, for some reason, for temporary certificates of the sugar certificate plan this month, and have not submitted to Ottawa a sworn statement of their sugar consumption during the year 1917, on which the sugar certificate plan, from September 1 is to be based. In order to meet these licensees are faced with the problem of whether they will be strictly enforced they will be required to submit to the minister of health a sworn statement of their sugar consumption for the year 1917, on which the sugar certificate plan is to be based.

Under the scheme looking toward a solution of the labor problem can be adequately met by the sugar certificate plan, and the sugar certificate plan is common enterprise and enters in common enterprise, it is to control industry.

MILLS WILL RESUME OPERATIONS SOON

Sept. 10 Date Indicated For The Resumption of Wheat Grinding.

Western flour mills, which have been suspended since July owing to the wheat shortage which has existed to the present time, will be required to resume operations on September 16, when it is estimated that there will be sufficient wheat available for grinding.

It is to be hoped that the government through the local committees will do all in their power to make the mills resume operations as soon as possible.

An Appreciation of Labor

THE WAR has changed many things, and one of the most interesting as well as one of the most hopeful evolutions which the outburst of Kaiserism has brought about is the new spirit of co-operation and mutual consideration now being manifested in the Allied countries between the sometimes warring elements of capital and labor.

Labor has risen magnificently to its duty in the war and has indeed played a noble part in helping to make possible the splendid and heroic defence of the spirit of democracy which has characterized the work of the Allied arms during the four years of war, and which now gives promise of resulting in a magnificent victory for the forces of civilization.

The almost unbelievable record which Great Britain has made in the last four years—in production of materials of war, in the building of ships to replace submarine losses, and in maintaining agricultural production—is very largely a record of labor rising to its grand and glorious opportunities.

In the United States a similarly creditable record holds. Munitions in unthinkable quantities have flowed in a steady stream to the battle-line, and in the more spectacular effort of replenishing the Allies' supply of shipping the American working-man has shown an admirable determination to do his full share, and more.

The same splendid record of co-operation and harmonious effort has been achieved by the forces of organized labor in Canada. We in this country have been remarkably free from the disturbances which might very easily have been incident to a period such as that through which we have been passing during the last four years, and in grateful recognition of the splendid spirit which has actuated the forces represented in organized labor in Edmonton, the firms mentioned are subscribing to this expression of appreciation.
